Pacita Abad

Celebrated Philippine artist, Pacita Abad, in collaboration with STPI's international team of printmakers and papermakers, creates a unique, new series of prints, paper assemblages and works in paper pulp. Embedded with objects and materials collected by Pacita throughout her journeys around the world and layered with the multitude of vibrant colours she is so well known for, these works have pushed the boundaries of printmaking and papermaking and given new life to the notion of mixed media.
