The Altos de Chavon Cultural Center Foundation is a nonprofit educational and cultural institution. Since its formation in 1983, the Foundation has fostered the creation of a multifaceted artistic community through art exhibitions, craft workshops, and artistic presentations, as well as educational programs in art and design.

Since 1981 the Artist-in-Residence Program has welcomed a roster of distinguished participants as well as artistic newcomers to live and work in Altos de Chavon.

The program is also a rich resource for School of Design students, who benefit from the intensive workshops and gallery exhibitions presented by invited artists.
